ASPERGILLUS TECHNOLOGY CONSORTIUM

Requests for Assay Testing Application Form

- Test name
 - details of the assay
- Type of test, test technology
- Test target
- Types of clinical sample to be assayed
- Type of equipment
- Details on preliminary performance

Prioritization and Approval

- **Review committee:**
 - Scientific merits of the assays
 - Likelihood of success as a new diagnostic test
 - Quality of the pre-testing by the test manufacturer
- **Prioritization Scoring:**
 - Used as a guide for test prioritization
 - Performed by individual members of the review group, then discussed as a group
